SUCCESS STAR TRAINING CENTER · SHARJAH

New Website Demo Pack

Modern academy website rebuild with Sharjah SEO course pages, blog, gallery, admissions, and WhatsApp enquiries.

Downloadable PDF + Demo Video (MP4)

Prepared for the academy owner · Private demo document

1) What this demo includes

- Modern homepage with Success Star branding
- Courses catalogue for Sharjah search keywords
- Individual course pages (tutoring, IGCSE, mental math, Excel, design, and more)
- Admissions / assessment enquiry form
- Blog with 5 SEO articles already written
- Gallery page ready for your real photos and videos
- WhatsApp buttons on all key pages
- Working sitemap for Google (old site sitemap was broken)
- Contact page with map and centre details

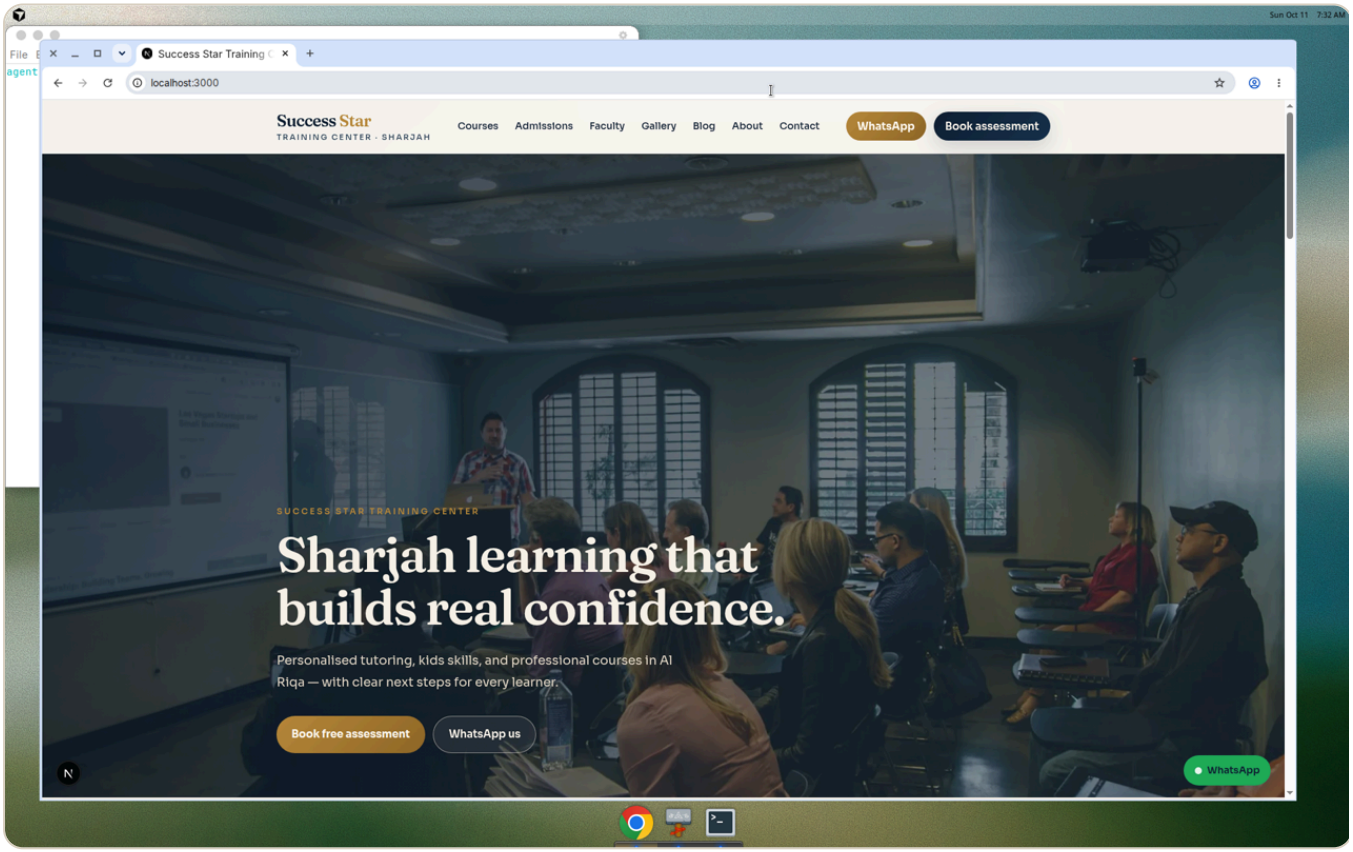

2) Problems on your current live site

- Unfinished placeholder text still visible (trust problem)
- Almost no SEO course pages for Sharjah searches
- No blog / media system for ranking and trust
- Sitemap error (500) blocking Google discovery
- Weak admissions journey and no clear WhatsApp conversion path

> **Current live site reviewed:** https://successstartraining.com

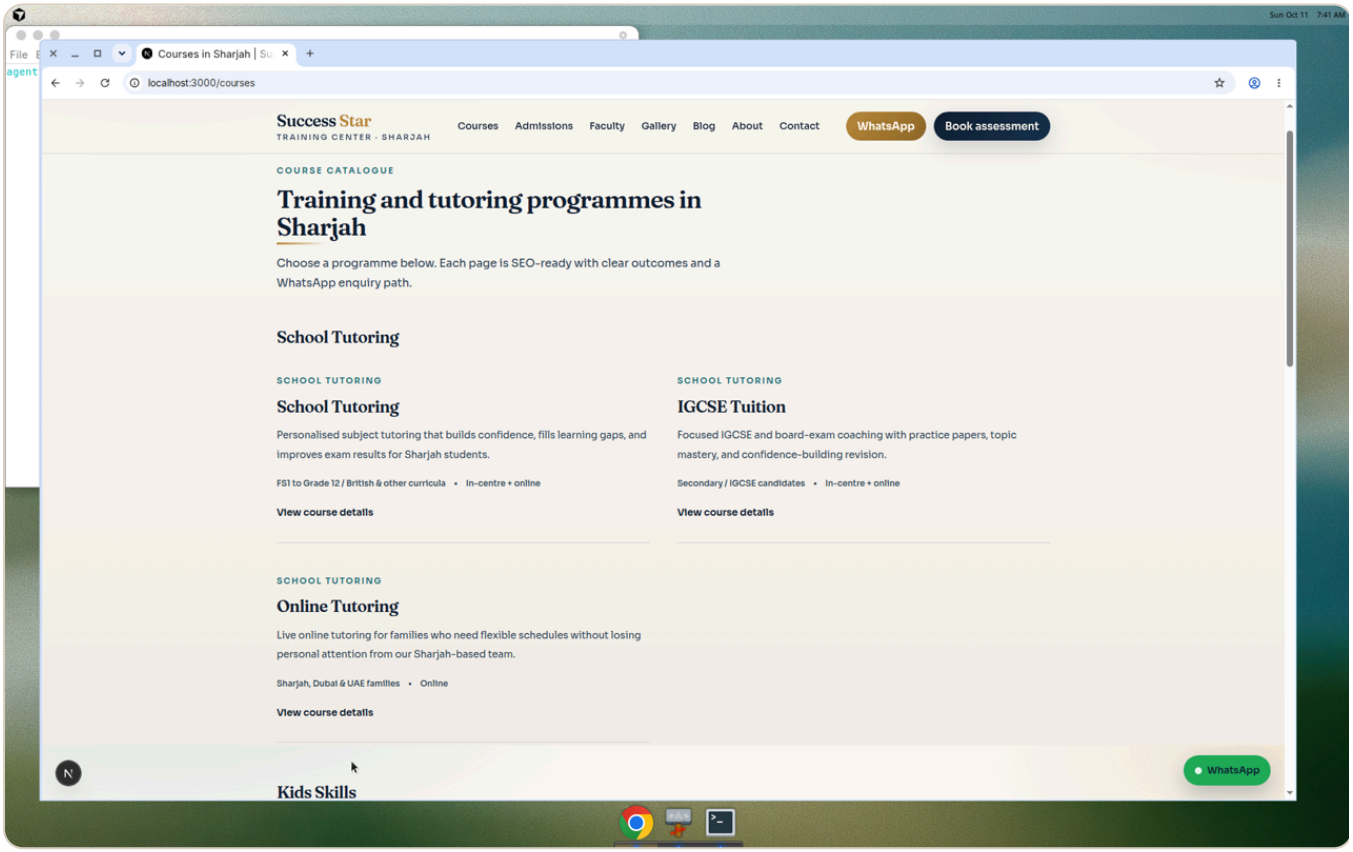

3) Homepage demo

Brand-first hero, Sharjah message, Book assessment + WhatsApp CTAs.

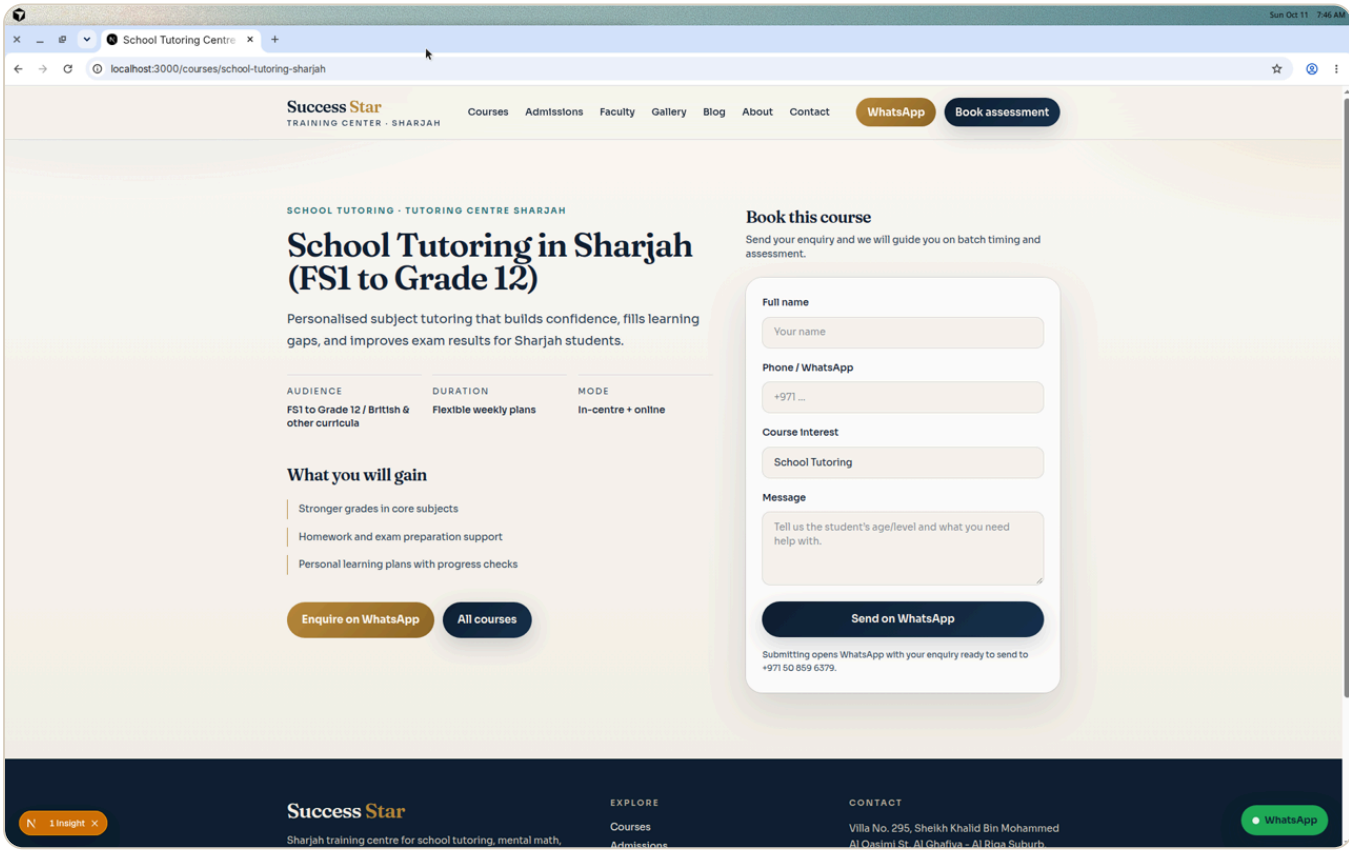

4) Courses catalogue demo

Sharjah-focused programme list built for Google search and enquiries.

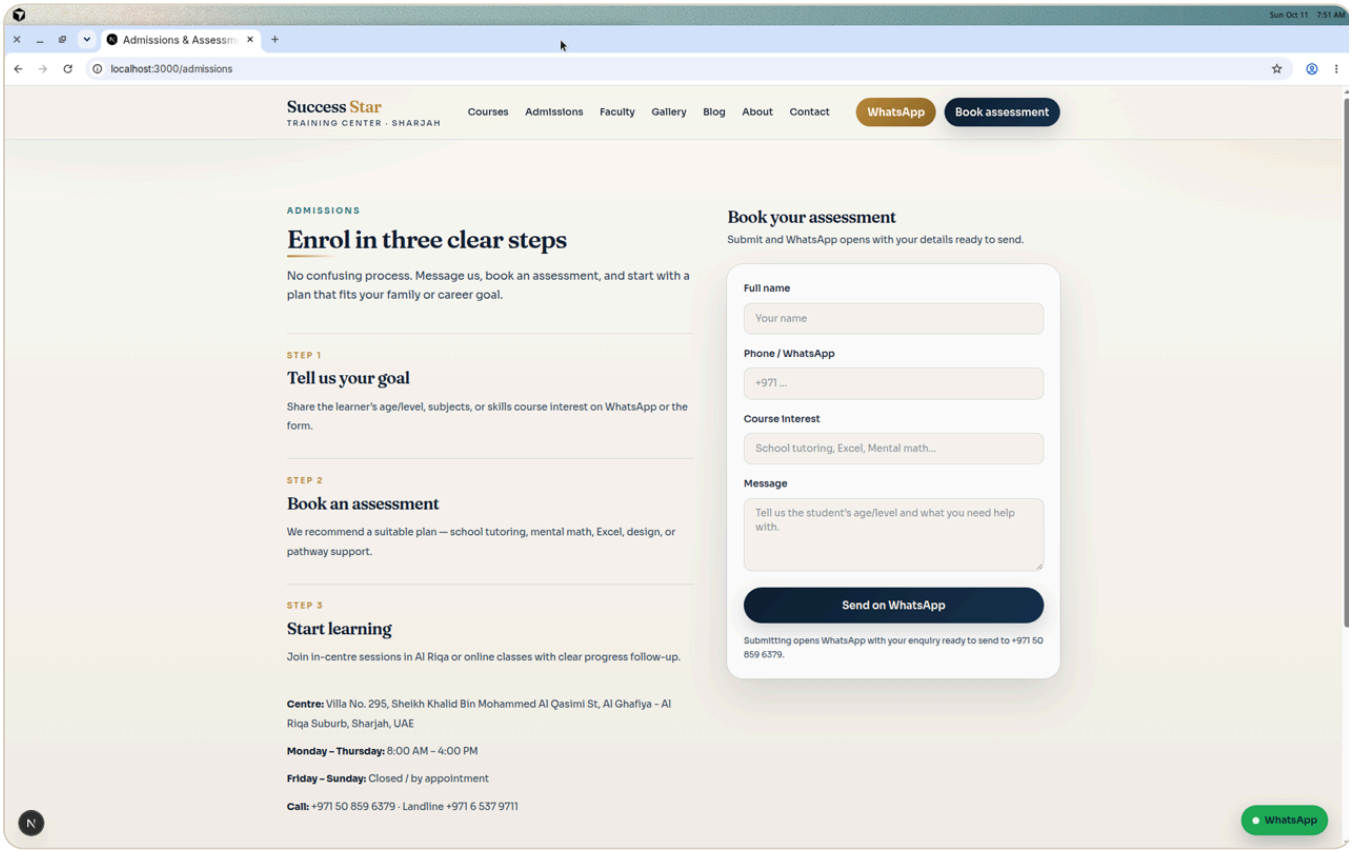

5) Course detail + enquiry form

Each course has its own SEO page and WhatsApp enquiry form.

6) Admissions page demo

Simple 3-step enrolment path with assessment form.

7) What I need from you (easy)

1. Upload 8–15 phone photos of your centre/classes
2. Teacher names (Name – subject)
3. Confirm exact courses you offer
4. Fees: show on website OR hide (“Contact for fees”)
5. Confirm main domain: successstartraining.com
6. Confirm WhatsApp number: +971 50 859 6379
7. Google/Gmail used for Google Business reviews

8) Downloadable demo files

Video: Success_Star_Website_Demo_Video.mp4

PDF: Success_Star_Website_Demo_Pack.pdf

Both files are attached in this Cursor chat for download.

> When you say **“Deploy the website”**, I will put the new site live on your domain.
